

FLEETCOR Reports Fourth Quarter and Fiscal-Year 2017 Financial Results

PEACHTREE CORNERS, Ga., February 8, 2018 -- FLEETCOR Technologies, Inc. (NYSE: FLT), a leading global provider of commercial payment solutions, today reported financial results for its fourth quarter and year ended December 31, 2017.

“Our Q4 revenues and profits finished above our expectations, and our sales, retention, and same store customer trends were very strong. For fiscal year 2017, revenues and adjusted net income per diluted share grew 23%; while we re-positioned the company for faster growth, with the Cambridge acquisition and the Nextraq divestiture,” said Ron Clarke, chairman and chief executive officer, FLEETCOR Technologies, Inc. “For 2018, we expect each of our four primary product categories – fuel, toll, lodging, corporate payments – to continue to drive our Company’s growth as we focus relentlessly on execution in order to win new clients, open up new geographies, and provide improved value over a broader range of spend categories.”

Financial Results for Fourth Quarter of 2017:

GAAP Results

- Total revenues increased 18.5% to \$610.0 million in the fourth quarter of 2017 compared to \$515.0 million in the fourth quarter of 2016.
- Net income increased 196.3% to \$282.7 million in the fourth quarter of 2017 compared to \$95.4 million in the fourth quarter of 2016. Included in the fourth quarter is the favorable estimated impact of adoption of the Tax Reform Act of \$127.5 million. Also, included in the fourth quarter of 2016 were non-cash impairment charges related to the Company’s minority investment in Masternaut of approximately \$36 million.
- Net income per diluted share increased 204.6% to \$3.05 in the fourth quarter of 2017 compared to \$1.00 per diluted share in the fourth quarter of 2016.

Non-GAAP Results¹

- Adjusted revenues¹ (revenues, net less merchant commissions) increased 18.4% to \$579.5 million in the fourth quarter of 2017 compared to \$489.4 million in the fourth quarter of 2016.
- Adjusted net income¹ increased 24.1% to \$224.1 million in the fourth quarter of 2017 compared to \$180.5 million in the fourth quarter of 2016.
- Adjusted net income per diluted share¹ increased 27.6% to \$2.42 in the fourth quarter of 2017 compared to \$1.90 per diluted share in the fourth quarter of 2016.

Financial Results for Fiscal-Year 2017:

GAAP Results

- Total revenues increased 22.8% to \$2,249.5 million in 2017 compared to \$1,831.5 million in 2016.
- GAAP net income increased 63.6% to \$740.2 million in 2017 compared to \$452.4 million in 2016. Included in 2017 is the favorable estimated impact of adoption of the Tax Reform Act of \$127.5 million and a gain on the sale of Nextraq of \$109.2 million.
- GAAP net income per diluted share increased 66.5% to \$7.91 in 2017 compared to \$4.75 per diluted share in 2016.

Non-GAAP Results¹

- Adjusted revenues¹ (revenues, net less merchant commissions) increased 23.7% to 2,136.4 million in 2017 compared to \$1,727.2 million in 2016.
- Adjusted net income¹ increased 21.2% to \$798.9 million in 2017 compared to \$659.2 million in 2016.
- Adjusted net income per diluted share¹ increased 23.3% to \$8.54 in 2017 compared to \$6.92 in 2016.

Fiscal-Year 2018 Outlook:

“2018 is setting up well with a number of tailwinds that we expect will help drive profits in the year. First, the macro is expected to continue to be favorable to revenue by approximately \$40 million, organic growth is expected to be in the 8% to 10% range on a normalized basis, and the new tax act will drive our overall tax rate down by an estimated 5%. As a result, we are guiding adjusted net income per diluted share to \$10.20 at the midpoint which represents approximately a 20% growth from prior year,” said Eric Dey, chief financial officer FLEETCOR Technologies, Inc.

For 2018, FLEETCOR Technologies, Inc. financial guidance is as follows:

- Total revenues between \$2,490 million and \$2,550 million;
- Adjusted Revenues to be between \$2,370 million and \$2,430 million;
- GAAP net income between \$690 million and \$720 million;
- GAAP net income per diluted share between \$7.40 and \$7.70;
- Adjusted net income¹ between \$935 million and \$965 million; and
- Adjusted net income per diluted share¹ between \$10.05 and \$10.35.

FLEETCOR’s guidance assumptions for 2018 are as follows:

- Weighted fuel prices equal to \$2.57 per gallon average in the U.S. for those businesses sensitive to the movement in the retail price of fuel.
- Market spreads equal to the 2017 average.
- Foreign exchange rates equal to the seven-day average as of January 22, 2018.
- Interest expense of \$125 million, which assumes two additional twenty-five basis point increases in 2018.
- Fully diluted shares outstanding of approximately 93.3 million shares.
- A tax rate of 22 to 24%.
- No impact for ASC 606, as we are still completing our analysis.
- No impact related to acquisitions or material new partnership agreements not already disclosed.

Fiscal First Quarter of 2018 Outlook:

For those of you that are looking for guidance for the first quarter, the business has some seasonality and typically the first quarter is the lowest in terms of both revenue and profit. First quarter seasonality is impacted by weather, holidays in the U.S., and lower business levels in Brazil, due to summer break and the Carnival celebration that occurs in the first quarter.

With that said, the Company is expecting first quarter adjusted net income per diluted share to be between \$2.30 and \$2.40¹. Additionally, volumes should build throughout the year, and new asset initiatives are also expected to gain momentum throughout the year resulting in higher revenue and earnings per share in the second through fourth quarters.

¹ Reconciliations of GAAP results to non-GAAP results are provided in Exhibit 1 attached. Additional supplemental data is provided in Exhibit 2-3 and 5, and segment information is provided in Exhibit 4. A reconciliation of GAAP guidance to non-GAAP guidance is provided in Exhibit 6.

Conference Call

The Company will host a conference call to discuss fourth quarter and full year 2017 financial results today at 5:00pm ET. Hosting the call will be Ron Clarke, chief executive officer, Eric Dey, chief financial officer and Jim Eglseder, investor relations. The conference call can be accessed live over the phone by dialing (877) 407-0784, or for international callers (201) 689-8560. A replay will be available one hour after the call and can be accessed by dialing (844) 512-2921 or (412) 317-6671 for international callers; the conference ID is 13675734. The replay will be available until February 15, 2018. The call will be webcast live from the Company's investor relations website at investor.fleetcor.com. Prior to the conference call, the Company will post supplemental financial information that will be discussed during the call and live webcast.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Statements that are not historical facts, including statements about FLEETCOR's beliefs, expectations and future performance, are forward-looking statements. Forward-looking statements can be identified by the use of words such as "anticipate," "intend," "believe," "estimate," "plan," "seek," "project," "expect," "may," "will," "would," "could" or "should," the negative of these terms or other comparable terminology. Examples of forward-looking statements in this press release include statements relating to macro-economic conditions, expected organic growth rates, impact of the new tax act, and estimated impact of these conditions on our operations and financial results, expected timing of acquisitions and dispositions, revenue and earnings guidance and assumptions underlying financial guidance. These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those contained in any forward-looking statement, such as fuel price and spread volatility; the impact of foreign exchange rates on operations, revenue and income; the effects of general economic conditions on fueling patterns and the commercial activity of fleets; changes in credit risk of customers and associated losses; the actions of regulators relating to payment cards or resulting from investigations; failure to maintain or renew key business relationships; failure to maintain competitive offerings; failure to maintain or renew sources of financing; failure to complete, or delays in completing, anticipated new customer arrangements or acquisitions and the failure to successfully integrate or otherwise achieve anticipated benefits from such customer arrangements or acquired businesses; failure to successfully expand business internationally, risks related to litigation, as well as the other risks and uncertainties identified under the caption "Risk Factors" in FLEETCOR's Annual Report on Form 10-K for the year ended December 31, 2016, filed with the Securities and Exchange Commission on March 1, 2017, and quarterly reports on form 10-Q for the quarters ended June 30 and September 30, 2017 filed with the Securities and Exchange Commission on August 8, 2017 and November 9, 2017, respectively. FLEETCOR believes these forward-looking statements are reasonable; however, forward-looking statements are not a guarantee of performance, and undue reliance should not be placed on such statements. The forward-looking statements included in this press release are made only as of the date hereof, and FLEETCOR does not undertake, and specifically disclaims, any obligation to update any such statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments.

About Non-GAAP Financial Measures

Adjusted revenue is calculated as revenues less merchant commissions. Adjusted net income is calculated as net income, adjusted to eliminate (a) non-cash stock based compensation expense related to share based compensation awards, (b) amortization of deferred financing costs, discounts and intangible assets, amortization of the premium recognized on the purchase of receivables, and our proportionate share of amortization of intangible assets at our equity method investment, (c) a non-recurring net gain at our equity method investment, (d) impairment of our equity method investment, (e) net gain on disposition of business, (f) loss on early extinguishment of debt and, (g) other non-recurring items, including the impact of the Tax Reform Act. The Company uses adjusted revenue as a basis to evaluate the Company's revenues, net of the commissions that are paid to merchants to participate in our card programs. The commissions paid to merchants can vary when market spreads fluctuate in much the same way as revenues are impacted when market spreads fluctuate. The Company believes this is a more effective way to evaluate the Company's revenue performance. We calculate adjusted net income to

eliminate the effect of items that we do not consider indicative of our core operating performance. Adjusted revenues and adjusted net income are supplemental measures of operating performance that do not represent and should not be considered as an alternative to revenues, net income or cash flow from operations, as determined by U.S. generally accepted accounting principles, or U.S. GAAP, and our calculation thereof may not be comparable to that reported by other companies. We believe it is useful to exclude non-cash stock based compensation expense from adjusted net income because non-cash equity grants made at a certain price and point in time do not necessarily reflect how our business is performing at any particular time and stock based compensation expense is not a key measure of our core operating performance. We also believe that amortization expense can vary substantially from company to company and from period to period depending upon their financing and accounting methods, the fair value and average expected life of their acquired intangible assets, their capital structures and the method by which their assets were acquired; therefore, we have excluded amortization expense from our adjusted net income. We also believe one-time non-recurring gains, losses, and impairment charges do not necessarily reflect how our investments and business are performing. Reconciliations of GAAP results to non-GAAP results are provided in the attached exhibit 1. A reconciliation of GAAP to non-GAAP product revenue organic growth calculation is provided in the attached exhibit 5. A reconciliation of GAAP to non-GAAP guidance is provided in the attached exhibit 6.

Management uses adjusted revenues and adjusted net income:

- as measurements of operating performance because they assist us in comparing our operating performance on a consistent basis;
- for planning purposes, including the preparation of our internal annual operating budget;
- to allocate resources to enhance the financial performance of our business; and
- to evaluate the performance and effectiveness of our operational strategies.

We believe adjusted revenues, adjusted net income, and adjusted net income per diluted share are key measures used by the Company and investors as supplemental measures to evaluate the overall operating performance of companies in our industry. By providing these non-GAAP financial measures, together with reconciliations, we believe we are enhancing investors' understanding of our business and our results of operations, as well as assisting investors in evaluating how well we are executing strategic initiatives.

About FLEETCOR

FLEETCOR Technologies (NYSE: FLT) is a leading global provider of commercial payment solutions. The Company helps businesses of all sizes better control, simplify and secure payment of their fuel, toll, lodging and other general payables. With its proprietary payment acceptance networks, FLEETCOR provides affiliated merchants with incremental sales and loyalty. FLEETCOR serves businesses, partners and merchants in North America, Latin America, Europe, and Australasia. For more information, please visit www.FLEETCOR.com.

* Columns may not calculate due to impact of rounding.

¹ Other includes telematics, maintenance, food, and transportation related businesses.

² Pro forma and macro adjusted revenue is a non-GAAP financial measure defined as revenues, net adjusted for the impact of the macroeconomic environment and acquisitions and dispositions and other one-time items. We use pro forma and macro adjusted revenue as a basis to evaluate our organic growth. See Exhibit 5 for a reconciliation of pro forma and macro adjusted revenue by product, non-GAAP measures, to the GAAP equivalent.

³ 2017 is adjusted to remove the impact of changes in the macroeconomic environment to be consistent with the same period of prior year, using constant fuel prices, fuel price spreads and foreign exchange rates.

⁴ 2016 is pro forma to include acquisitions and exclude dispositions consistent with 2017 ownership.

⁵ 2016 and YTD 2017 transactions reflect immaterial corrections from previously disclosed amounts for the prior period.

⁶ Fuel Cards product category further refined to Fuel, to reflect different ways that fuel is paid for by our customers.

⁷ Reflects adjustments related to one-time items not representative of normal business operations.

Consolidated Revenues, net	\$ 610	100%	\$ 515	100%	\$ 2,250	100%	\$ 1,832	100%

¹ Includes revenue from customers based on accounts, cards, devices, transactions, load amounts and/or purchase amounts, etc. for participation in our various fleet and workforce related programs; as well as, revenue from partners (e.g., major retailers, leasing companies, oil companies, petroleum marketers, etc.) for processing and network management services. Primarily represents revenue from North American trucking, lodging, prepaid benefits, telematics, gift cards and toll related businesses.

² Fees for late payment and interest charges for carrying a balance charged to a customer.

³ Non-standard fees charged to customers based on customer behavior or optional participation, primarily including high credit risk surcharges, over credit limit charges, minimum processing fees, printing and mailing fees, environmental fees, etc.

⁴ Interchange revenue directly influenced by the absolute price of fuel and other interchange related to fuel products.

⁵ Interchange revenue related to nonfuel products.

⁶ Revenue derived from the difference between the price charged to a fleet customer for a transaction and the price paid to the merchant for the same transaction.

⁷ Revenue derived primarily from the sale of equipment, software and related maintenance to merchants.

⁸ Amounts shown for the three months ended December 31, 2016 and years ended December 31, 2017 and 2016 reflect immaterial corrections in estimated allocation of revenue by product and sources of revenue from previously disclosed amounts for the prior period.

* We may not be able to precisely calculate revenue by source, as certain estimates were made in these allocations. Columns may not calculate due to impact of rounding. This table reflects how management views the sources of revenue and may not be consistent with prior disclosure.
