PROSPECTUS SUPPLEMENT SUMMARY

The following summary does not contain all the information that may be important to purchasers of our common stock. You should carefully read the entire prospectus supplement, the accompanying prospectus and the financial statements, notes to financial statements and other information incorporated by reference in this prospectus supplement before making any investment decision.

Our Company

FleetCor is a leading independent global provider of fuel cards and workforce payment products and services to businesses, commercial fleets, major oil companies, petroleum marketers and government entities in countries throughout North America, Latin America and Europe. Our payment programs enable our customers to better manage and control employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty. In 2012, we processed approximately 304 million transactions on our proprietary networks and third-party networks. We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. In order to deliver our payment programs and services and process transactions, we own and operate proprietary “closed-loop” networks through which we electronically connect to merchants and capture, analyze and report customized information. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall fleet operating costs.

We market our payment products directly to a broad range of businesses, commercial fleet customers, oil companies, petroleum marketers and government entities. Among these customers, we provide our products and services to commercial fleets of all sizes. These fleets include small and medium commercial fleets, which we believe represent an attractive segment of the global commercial fleet market given their relatively high use of less efficient payment products, such as cash and general purpose credit cards. We also manage commercial fleet card programs for major oil companies, such as British Petroleum (including its subsidiary Arco), Chevron and Citgo, and over 800 petroleum marketers.

These companies collectively maintain hundreds of thousands of end-customer relationships with commercial fleets. We refer to these major oil companies and petroleum marketers with whom we have strategic relationships as our “partners.”

Our Products and Services

We sell a range of customized fleet and lodging payment programs directly and indirectly through partners, such as major oil companies and petroleum marketers. We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging and related products and services at participating locations. We support these cards with specialized issuing, processing and information services that enable us to manage card accounts, facilitate the routing, authorization, clearing and settlement of transactions, and provide value-added functionality and data including customizable card-level controls and productivity analysis tools. Depending on our customer’s and partner’s needs, we provide these services in a variety of outsourced solutions ranging from a comprehensive “end-to-end” solution (encompassing issuing, processing and network services) to limited back office processing services. In Brazil, we have designed proprietary equipment which, when installed

at the fueling site and on the vehicle and combined with our processing system, significantly reduces the likelihood of unauthorized and fraudulent transactions. We offer this product to over-the-road trucking fleets, shipping fleets and other operators of heavily industrialized equipment, including sea-going vessels, mining equipment, agricultural equipment, and locomotives. In addition, we offer a telematics solution in Europe that combines global positioning, satellite tracking and other wireless technology to allow fleet operators to monitor the capacity utilization and movement of their vehicles and drivers. Furthermore, in Mexico, we offer prepaid fuel and food vouchers and cards that may be used as a form of payment in restaurants, grocery stores and gas stations. We market these payment products to small, medium and large businesses, which provide these cards and vouchers to their employees as benefits, as well as a tool to manage fuel expenses.

UNDERWRITING

Citigroup Global Markets Inc. is acting as underwriter of the offering. Subject to the terms and conditions stated in the underwriting agreement dated March 1, 2013, the underwriter has agreed to purchase, and the selling stockholders have agreed to sell to the underwriter, all 4,500,000 shares of common stock offered hereby.

The underwriting agreement provides that the obligation of the underwriter to purchase the shares included in this offering is subject to approval of legal matters by counsel and to other conditions. The underwriter is obligated to purchase all the shares if it purchases any of the shares.

The underwriter may receive from purchasers of the shares normal brokerage commissions in amounts agreed with such purchasers. The underwriter proposes to offer the shares of common stock from time to time for sale in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. The underwriter may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal. The difference between the price at which the underwriter purchases shares and the price at which the underwriter resells such shares may be deemed underwriting compensation.

FleetCor and the selling stockholders, other than any recipient charities, have agreed that, for a period of 60 days from the date of the underwriting agreement, they will not, without the prior written consent of the underwriter, sell, dispose of or hedge any shares of our common stock or any securities convertible into or exchangeable for our common stock, subject to specified exceptions. The underwriter in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

The shares are listed on the New York Stock Exchange under the symbol "FLT."

We estimate that the total expenses of this offering, excluding any underwriting discounts and commissions, will be approximately \$150,000 for FleetCor and \$300,000 for the selling stockholders.

In connection with the offering, the underwriter may purchase and sell shares in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions and stabilizing purchases.

- Short sales involve secondary market sales by the underwriter of a greater number of shares than it is required to purchase in the offering.
- Covering transactions involve purchases of shares in the open market after the distribution has been completed in order to cover short positions.
- Stabilizing transactions involve bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriter for its own account, may have the effect of preventing or retarding a decline in the market price of the shares. They may also cause the price of the shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriter may conduct these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise. If the underwriter commences any of these transactions, it may discontinue them at any time.

[Table of Contents](#)

The underwriter is a full service financial institution engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The underwriter and its affiliates have in the past performed, or may in the future perform, commercial banking, investment banking and/or advisory services for us from time to time for which they have received or will receive customary fees and reimbursement of expenses. In the ordinary course of their various business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own accounts and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments.

We and the selling stockholders have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriter may be required to make because of any of those liabilities.

The sellers of the shares have not authorized and do not authorize the making of any offer of shares through any financial intermediary on their behalf, other than offers made by the underwriter with a view to the final placement of the shares as contemplated in this prospectus supplement. Accordingly, no purchaser of the shares, other than the underwriter, is authorized to make any further offer of the shares on behalf of the sellers or the underwriter.

PROSPECTUS SUMMARY

The following summary does not contain all the information that may be important to purchasers of our common stock. You should carefully read the entire prospectus and the financial statements, notes to financial statements and other information incorporated by reference in this prospectus before making any investment decision.

Our Company

FleetCor is a leading independent global provider of specialized payment products and services to businesses, commercial fleets, major oil companies, petroleum marketers and government entities in countries throughout North America, Latin America and Europe. Our payment programs enable our customers to better manage and control employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty. In 2011, we processed more than 215 million transactions on our proprietary networks and third-party networks. We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. In order to deliver our payment programs and services and process transactions, we own and operate proprietary “closed-loop” networks through which we electronically connect to merchants and capture, analyze and report customized information. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall fleet operating costs.

We market our payment products directly to a broad range of commercial fleet customers, including vehicle fleets of all sizes and government fleets. Among these customers, we provide our products and services predominantly to small and medium commercial fleets. We believe these fleets represent an attractive segment of the global commercial fleet market given their relatively high use of less efficient payment products, such as cash and general purpose credit cards. We also manage commercial fleet card programs for major oil companies, such as British Petroleum (including its subsidiary Arco), Chevron and Citgo, and over 800 petroleum marketers.

These companies collectively maintain hundreds of thousands of end-customer relationships with commercial fleets. We refer to these major oil companies and petroleum marketers with whom we have strategic relationships as our “partners.”

Our Products and Services

We sell a range of customized fleet and lodging payment programs directly and indirectly through partners, such as major oil companies and petroleum marketers. We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging and related products and services at participating locations. We support these cards with specialized issuing, processing and information services that enable us to manage card accounts, facilitate the routing, authorization, clearing and settlement of transactions, and provide value-added functionality and data including customizable card-level controls and productivity analysis tools. Depending on our customer’s and partner’s needs, we provide these services in a variety of outsourced solutions

ranging from a comprehensive “end-to-end” solution (encompassing issuing, processing and network services) to limited back office processing services. In addition, we offer a telematics solution in Europe that combines global positioning, satellite tracking and other wireless technology to allow fleet operators to monitor the capacity utilization and movement of their vehicles and drivers. Furthermore, we offer prepaid fuel and food vouchers and cards in Mexico that may be used as a form of payment in restaurants, grocery stores and gas stations. Approximately 10.4% of our revenue during the year ended December 31, 2011 came from our lodging and telematics products.

RISK FACTORS

An investment in our common stock involves risk. Before investing in our common stock, you should carefully consider the risks described below as well as other factors and information included in or incorporated by reference into this prospectus, including the risk factors set forth in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and subsequently filed SEC reports. Any such risks could materially and adversely affect our business, financial condition or results of operations. However, the selected risks described below and the risks incorporated by reference herein are not the only risks facing us. Additional risks and uncertainties not currently known to us or those we currently view to be immaterial may also materially and adversely affect our business, financial condition or results of operations. In such a case, the trading price of our common stock could decline and you may lose all or part of your investment in our company.

Risks Related to this Offering

Any shares offered by this prospectus could result in a substantial amount of previously restricted shares of our common stock becoming unrestricted, which may depress the market price of our common stock.

Any shares of common stock offered by this prospectus were, prior to this offering, subject to the volume limitations and other restrictions of Rule 144 under the Securities Act of 1933, as amended, or the Securities Act. The sale by any selling stockholder of the shares of common stock offered by this prospectus will increase the number of shares of our common stock eligible to be traded without regard to such volume limitations and other restrictions and could depress the market price of our common stock.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus and the documents incorporated herein by reference are forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results, in contrast with statements that reflect historical facts. In some cases, we have identified such forward-looking statements with typical conditional words such as “anticipate,” “intend,” “believe,” “estimate,” “plan,” “seek,” “project” or “expect,” “may,” “will,” “would,” “could” or “should,” the negative of these terms or other comparable terminology.

These forward-looking statements are not a guarantee of performance, and you should not place undue reliance on such statements. We have based these forward-looking statements largely on our current expectations and projections about future events. Forward-looking statements are subject to many uncertainties and other variable circumstances, including those discussed in this prospectus under the heading “Risk Factors” and in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2011, which is incorporated by reference in this prospectus, many of which are outside of our control, that could cause our actual results and experience to differ materially from any forward-looking statement. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements contained in this prospectus and the documents incorporated herein by reference speak only as of the date they were made. We do not undertake, and specifically decline, any obligation to update any such statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments.

DIVIDEND POLICY

We currently expect to retain all future earnings, if any, for use in the operation and expansion of our business. We have never declared or paid any dividends on our common stock and do not anticipate paying cash dividends to holders of our common stock in the foreseeable future. In addition, our credit agreement restricts our ability to pay dividends. Any determination to pay dividends in the future will be at the discretion of our board of directors and will depend upon, among other factors, our results of operations, financial condition, capital requirements and covenants in our existing financing arrangements and any future financing arrangements.

PLAN OF DISTRIBUTION

The selling stockholders may sell the common stock covered by this prospectus from time to time in any of three ways (or in any combination):

- to or through underwriters or dealers;
- directly to one or more purchasers; or
- through agents.

The selling stockholders may distribute the common stock from time to time in one or more transactions:

- at a fixed price or prices, which may be changed from time to time;
- at market prices prevailing at the time of sale;
- at prices related to the prevailing market prices; or
- at negotiated prices.

Each time the selling stockholders offer and sell shares of our common stock covered by this prospectus, we will provide a prospectus supplement that will describe the method of distribution and set forth the terms of the offering, including:

- the name or names of the selling stockholders and the amounts to be sold by them;
- the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them;
- the public offering price of the common stock and the proceeds to the selling stockholders;
- any over-allotment options under which underwriters may purchase additional common stock from the selling stockholders;
- any underwriting discounts or commissions or agency fees and other items constituting underwriters' or agents' compensation;
- terms and conditions of the offering;
- any discounts, commissions or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the common stock may be listed.

Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. The selling stockholders may determine the price or other terms of the common stock offered under this prospectus by use of an electronic auction. We will describe how any auction will determine the price or any other terms, how potential investors may participate in the auction and the nature of the obligations of the underwriter, dealer or agent in the applicable prospectus supplement.

Underwriters, dealers or any other third parties described above may offer and sell the offered common stock from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. If underwriters or dealers are used in the sale of any common stock, the common stock will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions described above. The common stock may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters or dealers. Generally, the underwriters' or dealers' obligations to purchase the common stock will be subject to certain conditions precedent. The underwriters or dealers will be obligated to purchase all of the

[Table of Contents](#)

common stock if they purchase any of the common stock, unless otherwise specified in the prospectus supplement. The selling stockholders may use underwriters with whom we or the selling stockholders have a material relationship. We will describe the nature of any such relationship in the prospectus supplement, naming the underwriter.

The selling stockholders may sell the common stock through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the common stock and any commissions paid to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment. The selling stockholders may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the common stock from the selling stockholders at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions paid for solicitation of these contracts.

Agents, dealers and underwriters may be entitled to indemnification by us or by selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents, dealers or underwriters may be required to make in respect thereof. Agents, dealers and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

A prospectus supplement may be used for resales from time to time by any holder of our securities that may acquire such shares of common stock upon an in-kind distribution by any existing security holder of all or a portion of such existing security holder's shares to its limited and general partners. Such selling stockholders may include direct and indirect transferees, pledges, donees and successors of the selling stockholders. Further, a prospectus supplement may be used in connection with sales or resales by any general partner of a selling stockholder in connection with sales by such general partner for cash or subsequent transfers by such general partner to its limited partners of their ratable portion of the shares then owned by such general partner, together with resales of such shares by such limited partners.

Any underwriter may engage in any option to purchase additional securities, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. The option to purchase additional securities involves sales in excess of the offering size, which create a short position. This short sales position may involve either "covered" short sales or "naked" short sales. Covered short sales are short sales made in an amount not greater than the underwriters' option to purchase additional securities option to purchase additional shares in the offering described above. The underwriters may close out any covered short position either by exercising their option to purchase additional securities or by purchasing securities in the open market. To determine how they will close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market, as compared to the price at which they may purchase shares through the option to purchase additional securities. Naked short sales are short sales in excess of the option to purchase additional securities. The underwriters must close out any naked short position by purchasing securities in the open market. A naked short position is more likely to be created if the underwriters are concerned that, in the open market after pricing, there may be downward pressure on the price of the securities that could adversely affect investors who purchase securities in this offering. Stabilizing transactions permit bids to purchase the underlying security for the purpose of fixing the price of the security so long as the stabilizing bids do not exceed a specified maximum. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions.

Similar to other purchase transactions, an underwriter's purchase to cover syndicate short sales or to stabilize the market price of our common stock may have the effect of raising or maintaining the market price of our common stock or preventing or mitigating a decline in the market price of our common stock. As a result, the

[Table of Contents](#)

price of the shares of our common stock may be higher than the price that might otherwise exist in the open market. The imposition of a penalty bid might also have an effect on the price of the shares if it discourages resales of the shares.

As a result of the requirements of the Financial Industry Regulatory Authority, or FINRA, the maximum commission or discount to be received by any FINRA member or independent broker/dealer may not be greater than 8% of the gross offering proceeds received by the selling stockholders. If more than 5% of the net proceeds of any offering of common stock made under this prospectus will be received by a FINRA member participating in the offering or affiliates or associated persons of such FINRA member or any other facts and circumstances relating to the participation of a FINRA member in the offering would give rise to a “conflict of interest” under FINRA rules, the offering will be conducted in accordance with FINRA Rule 5121.

We, the selling stockholders and any underwriters make no representation or prediction as to the effect that the types of transactions described above may have on the price of the shares. If such transactions are commenced, they may be discontinued without notice at any time.

DESCRIPTION OF CAPITAL STOCK

The following description summarizes important terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our amended and restated certificate of incorporation and amended and restated bylaws, which are incorporated by reference herein, as well as the relevant portions of the DGCL. References to our certificate of incorporation and bylaws are to our amended and restated certificate of incorporation and our amended and restated bylaws, respectively.

Common Stock

General. As of February 29, 2012, there were 82,705,851 shares of our common stock outstanding, par value \$0.001 per share, and approximately 76 stockholders of record. Our certificate of incorporation authorizes the issuance of 475,000,000 shares of our common stock.

Voting rights. The holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders, including the election of directors, and do not have cumulative voting rights. Unless otherwise required by law, matters submitted to a vote of our stockholders require the approval of a majority of votes cast by stockholders represented in person or by proxy and entitled to vote on such matter, except that directors are elected by a plurality of votes cast. Accordingly, the holders of a majority of the shares of common stock entitled to vote in any election of directors will be able to elect all of the directors standing for election, if they so choose.

Dividend rights. Holders of common stock will be entitled to receive ratably dividends if, as and when dividends are declared from time to time by our board of directors out of funds legally available for that purpose subject to any preferential dividend rights of any then outstanding preferred stock. Our ability to pay dividends is limited by covenants in our credit facilities.

Other matters. Upon our liquidation, dissolution or winding up, the holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities and subject to any other distribution rights granted to holders of any outstanding preferred stock. Holders of common stock have no preemptive or conversion rights or other subscription rights, and no redemption or sinking fund provisions are applicable to our common stock. All outstanding shares of common stock are fully paid and nonassessable.

Preferred Stock

Our certificate of incorporation permits our board of directors to issue up to 25,000,000 shares of preferred stock from time to time in one or more classes or series. The board also may fix the relative rights and preferences of those shares, including dividend rights, conversion rights, voting rights, redemption rights, terms of sinking funds, liquidation preferences and the number of shares constituting any class or series or the designation of the class or series. Terms selected by our board of directors in the future could decrease the amount of earnings and assets available for distribution to holders of common stock or adversely affect the rights and powers, including voting rights, of the holders of common stock without any further vote or action by the stockholders. As a result, the rights of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued by us in the future, which could have the effect of decreasing the market price of our common stock.

Anti-Takeover Effects of Provisions of Our Certificate of Incorporation and Bylaws and Delaware Law

The provisions of the DGCL and our certificate of incorporation and bylaws could have the effect of discouraging others from attempting an unsolicited offer to acquire our company. Such provisions may also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

[Table of Contents](#)

Election and removal of directors. Our board of directors is divided into three classes. Each class of directors is elected for a three-year term. Our directors may be removed only by the affirmative vote of at least 66 ²/₃% of our then outstanding common stock and only for cause. This system of electing and removing directors generally makes it more difficult for stockholders to replace a majority of our directors.

Authorized but unissued shares. The authorized but unissued shares of our common stock and our preferred stock will be available for future issuance without any further vote or action by our stockholders. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of our common stock and our preferred stock could render more difficult or discourage an attempt to obtain control over us by means of a proxy contest, tender offer, merger or otherwise.

Stockholder action; advance notification of stockholder nominations and proposals. Our certificate of incorporation and bylaws require that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by a consent in writing. Our certificate of incorporation also requires that special meetings of stockholders be called only by a majority of our board of directors. In addition, our bylaws provide that candidates for director may be nominated and other business brought before an annual meeting only by the board of directors or by a stockholder who gives written notice to us no later than 90 days prior to nor earlier than 120 days prior to the first anniversary of the last annual meeting of stockholders. These provisions may have the effect of deterring unsolicited offers to acquire our company or delaying changes in control of our management, which could depress the market price of our common stock.

Amendment of certain provisions in our organizational documents. The amendment of any of the above provisions would require approval by holders of at least 66 ²/₃% of the voting power of all of the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class.

No cumulative voting. The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our certificate of incorporation expressly prohibits cumulative voting.

Delaware anti-takeover law. Our certificate of incorporation provides that Section 203 of the DGCL, an anti-takeover law, applies to us. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years following the date the person became an interested stockholder, unless the “business combination” or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own, 15% or more of a corporation’s voting stock.

Limitation of Liability and Indemnification

Our certificate of incorporation provides that no director will be personally liable for monetary damages for breach of any fiduciary duty as a director, except with respect to liability:

- for any breach of the director’s duty of loyalty to us or our stockholders;
- for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;
- under Section 174 of the DGCL (governing distributions to stockholders); or
- for any transaction from which the director derived any improper personal benefit.

If the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our amended and restated certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our bylaws also provide that we will, to the fullest extent permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding or arising out of their status as an officer or director or their activities in these capacities. We will also indemnify any person who, at our request, is or was serving as a director, officer, employee, agent or trustee of another corporation or of a partnership, limited liability company, joint venture, trust or other enterprise. We may, by action of our board of directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers.

Registration Rights

Pursuant to the terms of a sixth amended and restated registration rights agreement, as amended, certain holders of our common stock are entitled to rights with respect to the registration of their shares (to the extent such rights have not expired) under the Securities Act, as described below.

Demand registration rights. At the written request of certain stockholders, we must give notice to all holders of our common stock with registration rights, who would have 30 days to request inclusion in the offering, file a registration statement and use our best efforts to register all shares timely requested to be registered. Certain stockholders have two such demand registration rights and certain other stockholders have one such demand registration right. We are generally not obligated to effect a registration during the 120-day period subsequent to our filing a registration statement pursuant to these demand registration rights. We may postpone the filing of a registration statement for up to 90 days twice in a 12-month period, but not more than 120 consecutive days, if we have plans to engage in a registered public offering and our board of directors determines in good faith that such offering would be adversely affected by the requested registration.

Piggyback registration rights. If we register any of our securities for public sale, we must give notice to all holders of our common stock with registration rights, who would have 20 days to request inclusion in the offering, and use our best efforts to cause to be registered shares held by our stockholders with registration rights that request to include their shares in the registration statement. However, this right does not apply to a registration relating to any of our employee benefit plans or a corporate reorganization. The managing underwriter of any underwritten public offering will have the right to limit, due to marketing reasons, the number of shares registered by these holders.

Form S-3 registration rights. The holders of registration rights can request that we register all or a portion of their shares on Form S-3 if we are eligible to file a registration statement on Form S-3, upon which request we must give notice to all holders of our common stock with registration rights, who would have 20 days to request inclusion in the offering. We are required to file no more than one registration statement on Form S-3 upon exercise of these rights per six-month period and we are not required to honor registration requests if the aggregate market value of securities registered would be less than \$10 million.

Registration expenses. We will pay all expenses incurred in connection with each of the registrations described above, except for underwriters' discounts and selling commissions. In addition, we will pay the reasonable fees and disbursements of one counsel for the stockholders participating in such registration.

Indemnification. We have agreed, subject to certain exceptions, to indemnify against liabilities resulting from the offerings described above, each selling stockholder that is exercising its registration rights. In addition, we have agreed that, in order to provide for just and equitable contribution to joint liability, if indemnification is

not available to such parties, FleetCor and such parties will each contribute to any liability based on the proportion that the price of the shares sold by them relates to the aggregate offering price, subject to certain exceptions.

Expiration of registration rights. The registration rights described above will terminate with respect to a particular stockholder to the extent the shares held by and issuable to such holder may be sold without registration under the Securities Act in the manner and quantity proposed to be sold.
